Balder Grain & Hog Operation

Since 2006, our goal has been to assist farmers, ranchers and agribusiness owners in becoming more energy independent, sustainable and efficient. From the first conversation through project completion - Harvest Energy Solutions is dedicated to providing quality products and service at every phase of the sale, design and installation of your solar energy system. *Our sales reps, designers, engineers and installers are employees – not sub-contractors; this ensures a quality job that we stand behind – Guaranteed!*

Why Solar Energy?

- Save money on electric/power bills.
- Clean, safe, low-maintenance and affordable .
- 30% Federal Tax Credit (ends December 31, 2016).
- USDA Rural Energy America Program (REAP) Grants can cover up to 25% of project cost.
- Reduce carbon emissions by supporting renewable energy.
- Net-metering grandfathered by Michigan utilities will ensure low-cost energy.
- Reduced payback opportunities through grant and low-cost loan opportunities.
- Advances in solar technology have increased efficiency, reliability and durability.
- Production warranties up to 25 years with expected lifespan of 40 years.
- One more step toward energy independence.
